Town of St. Pauls Water User – Businesses/Institutions

The Town passed an ordinance in 2008 requiring the **installation and testing of back-flow prevention assemblies connected to potable water systems**, to prevent harmful contamination from flowing into our drinking water.

The ordinance is attached. It was passed in order to comply with NC Administrative Code Title 15A, NC Building Code (Volume II), and the Federal Safe Drinking Water Act.

The law requires:

1. **Installation of Back-flow prevention devices by a Certified Back-flow Prevention Tester. Your device must be the following type RPZ.**

The device must be approved by the American Society of Sanitary Engineering with an ASSE seal.

2. **The devices must be installed by a Certified Tester, with a copy of the Tester's certification submitted to:**
Town of St. Pauls
210 W. Blue Street
PO Box 364
St. Pauls, NC 28384
3. **Once installed, the Tester must test the device and send results to Town Office. Please phone Town Office for follow-up inspection at 910-865-5164.**
4. **Thereafter, the devices must be tested annually with a copy of a satisfactory test sent to Town of St. Pauls at the above address.**
5. For those **without** devices you have 30 days to have them installed. The devices must be installed for easy access of testing. Once installed, submit test results and Tester certification to Town of St. Pauls and phone Town Office (910-865-5164) for an inspection by the Public Works Department.

6. For those **already with** devices you have 90 days to have inspected, with a report in Town Office.
7. Due to the serious potential to harm Town citizens, and to protect you from liability, penalties mentioned in the ordinance may be enforced.
8. Attached is a list of possible (not mandatory) testers.

ST. PAULS, N.C. 28384

The Town of St. Pauls passed an ordinance in 2008 requiring the installation and testing of back-flow prevention assemblies connected to potable water systems. These assemblies are required to prevent harmful contamination from flowing into our drinking water.

The law requires the devices be installed by a certified tester with a copy of the tester's certification submitted to:

Town of St. Pauls
210 W. Blue Street
PO Box 364
St. Pauls, NC 28384

Once installed, the tester must test the device and send the results to the Town Office. Please phone Town Office for follow-up inspection at 910-865-5164. Thereafter, the devices must be tested annually and copies sent to the Town Office. All tests should be recorded on a Town test form that may be picked up at the Town Office.

If you have any questions, please contact Danny Holloman at 910-865-5164.
